Student Response Worksheet (Upper)
December 1, 2014 Notes from the Trail:
Crabs and Shellfish in Chesapeake Bay

<http://www.wildernessclassroom.com/crabs-shellfish-chesapeake-bay/>

1) What is an arthropod?

2) Have you ever seen a mollusk or crustacean? Describe the animal and where you saw it.

3) Why has the blue crab population decreased? What do you think can be done to help blue crabs?

4) If you could be any crustacean, what would you be? Why? Hint: follow the links to do some research about crustaceans.

Bonus: Choose a mollusk to research. Make a diagram of its parts and write a description of how it moves and gathers food.
